2nd visit on May 28 at 3:00 pm (group of 6 people)

First, each group will visit the exhibition
Répare Reprise and then visit the artists' studios

Since its creation in 1965, the Cité internationale des arts has welcomed artists from all over the world in residence. It is a place of life open to dialogue between cultures, where artists meet their audiences and professionals.

The Cité internationale des arts has 326 studios spread over its two sites (Marais and Montmartre)

These workshops bring together qualities conducive to production, experimentation and research in all fields of contemporary creation.

PARTNERSHIP MENART FAIR - CITE DES ARTS DE PARIS

Visit of the exhibition *Répare Reprise*

18 rue de l'Hôtel de ville, 75004, Paris

Khaled Dawwa, *Voici mon coeur* details, 2018-2020 - polystyrene and mixed media, 220 x 500 x 130 cm

The exhibition **Répare Reprise** gives voice to artists from the Middle East and Africa who have experienced exile. They come from Syria, Lebanon, Palestine, Iraq, Iran, the Golan, Congo DRC, Ethiopia, Algeria, Tunisia and France.

The artists attempt to recompose political imaginaries and repair intimate spaces.

These spaces range from the home as a refuge, by diverting objects and practices associated with the domestic (sewing, weaving, embroidery), to larger commons, such as public archives patiently stripped and decolonized, and new cartographies for territories bruised by war.

The visit of the exhibition is orchestrated by Pauline de Laboulaye.
